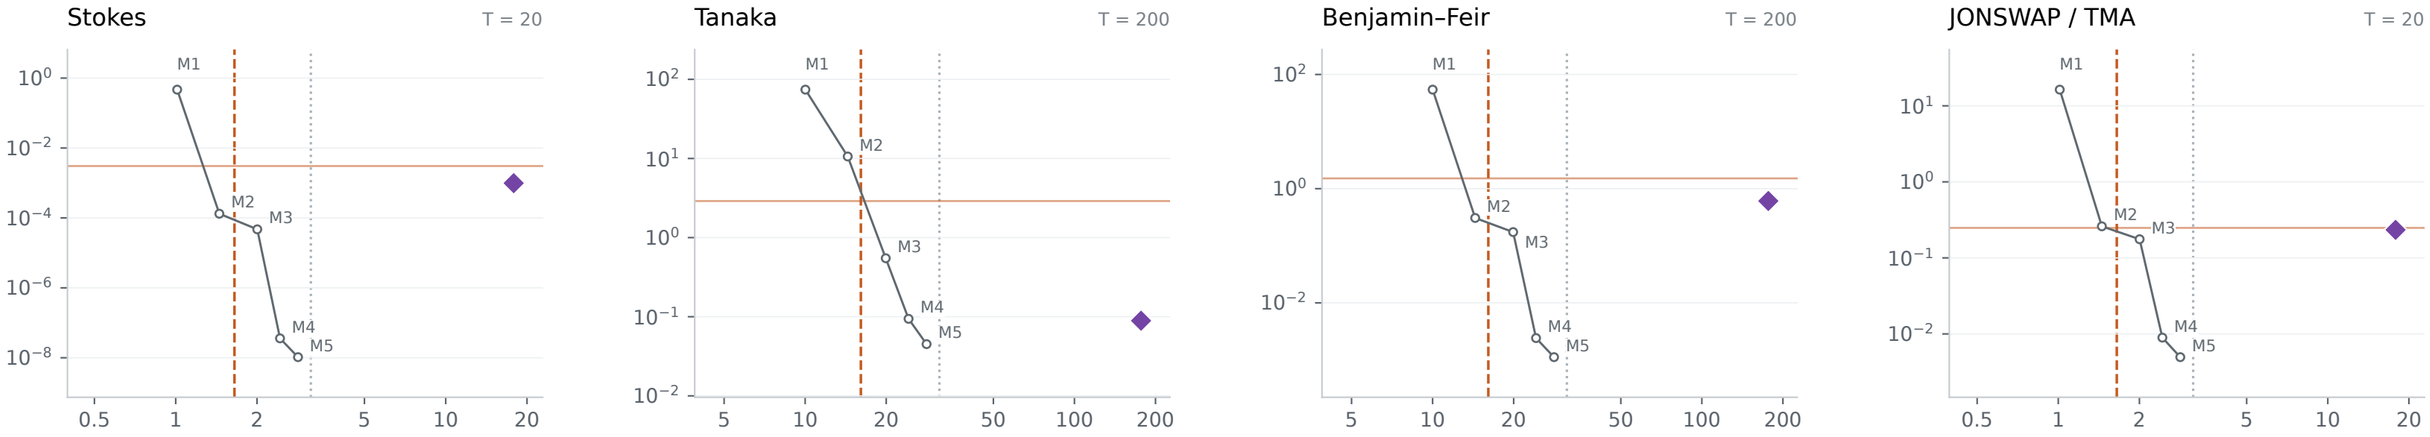
Single-rollout runtime vs error

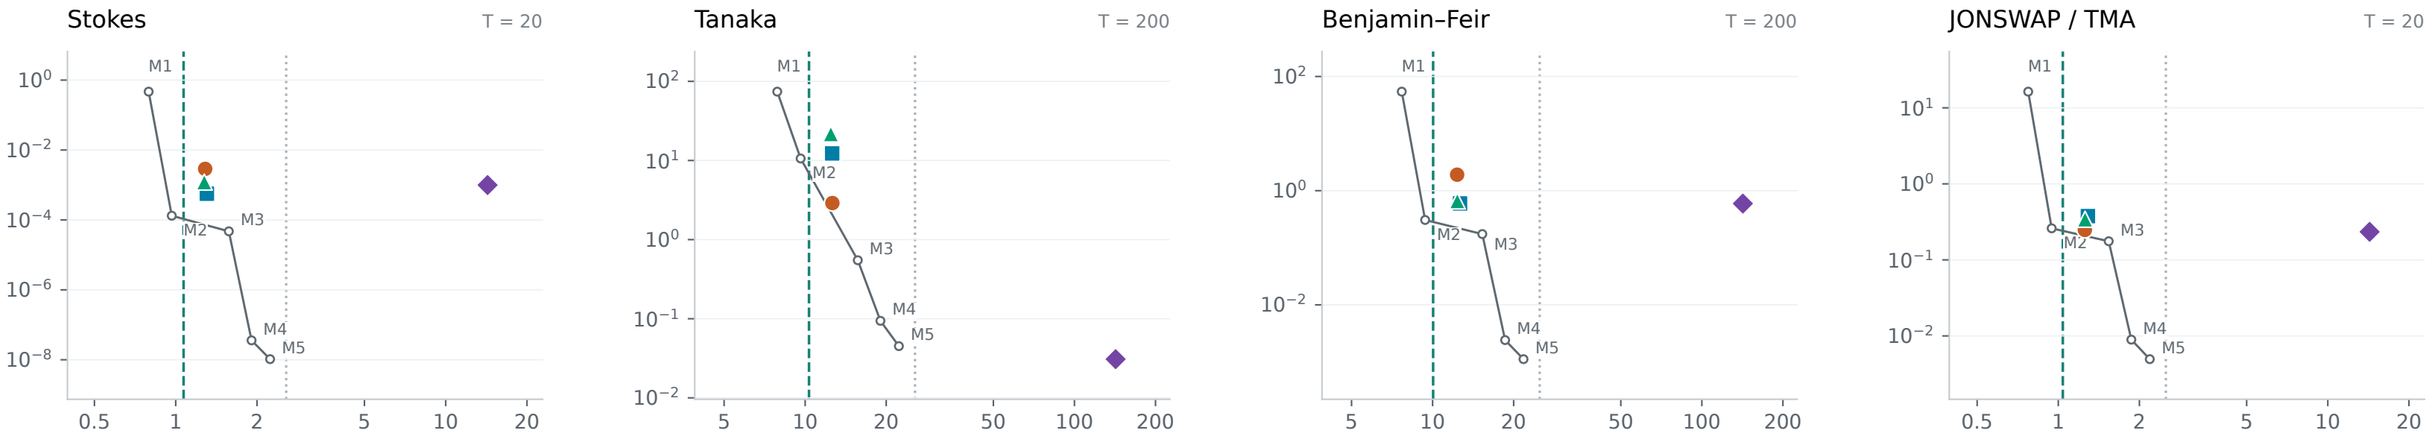
Blackwell · Modal — RTX PRO 6000

Classical · M6 time · New candidate optimized network · Gradient EMA — saved accuracy · Spectral DNO — weight EMA (PyTorch)



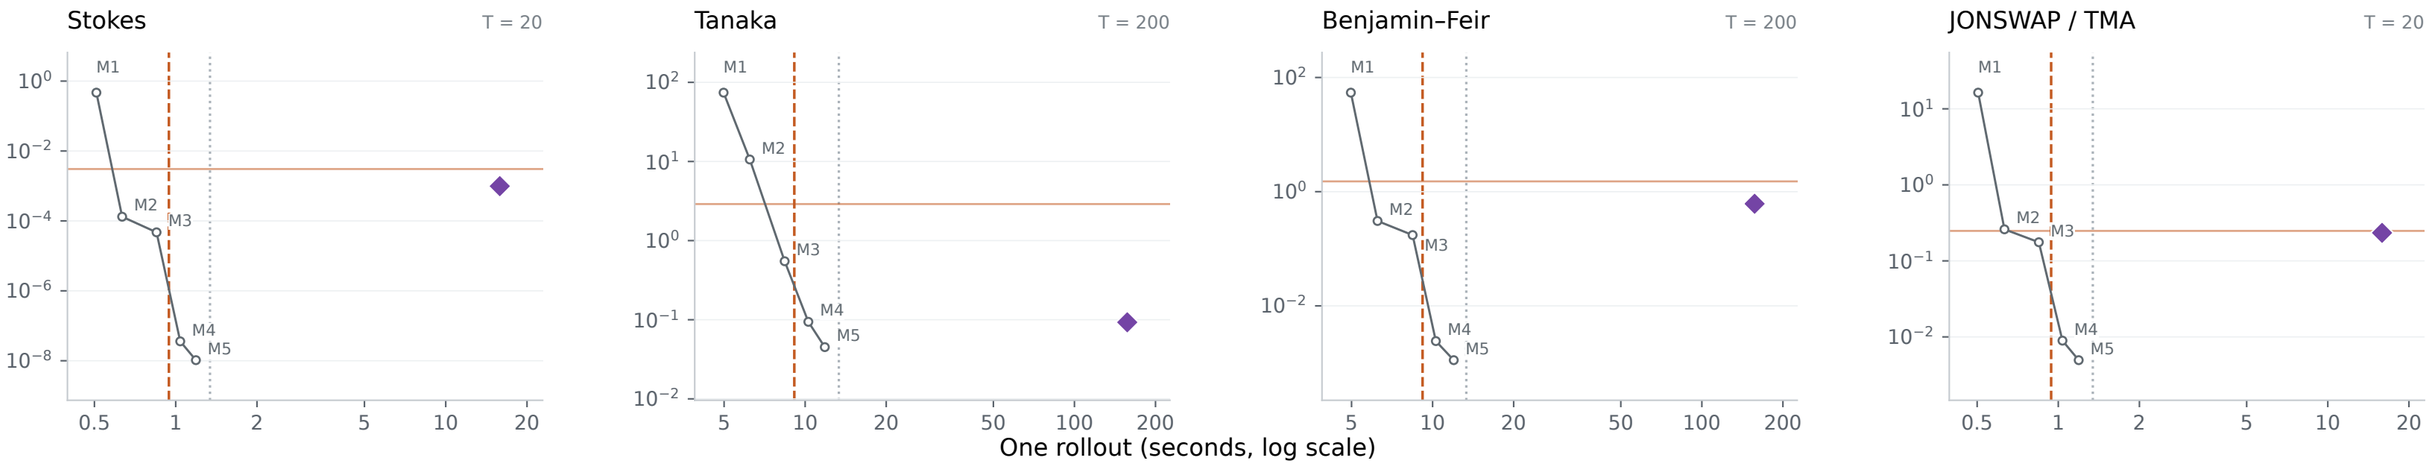
Ada · Local — RTX 6000

Classical · M6 time · New candidate optimized network · FP32 FFT trial — timing · Spectral DNO — weight EMA (PyTorch) · Local tangent — 120 epochs · Modal phase — 120 epochs



A100 · Modal — A100-SXM4-80GB

Classical · M6 time · New candidate optimized network · Gradient EMA — saved accuracy · Spectral DNO — weight EMA (PyTorch)



Final surface error (%)

One rollout (seconds, log scale)
